

OTHER RESEARCH – RELATED INITIATIVES

A. Development of a 100% cotton wrinkle-free fabric

- coordination with fabric/textile manufacturers was made;
- after visual examination/evaluation, the 100% cotton wrinkle- free fabric was chosen for experimentation and testing for the GOA uniform.

B. On-going Field testing on the 100% cotton wrinkle-free fabric:

- sixteen (16) prototypes of GOA uniform were tailored for field testing;
- field testing is to determine the functionality of the selected fabric; and
- result of the field test will form part of the recommendations for the adoption of the 100% cotton wrinkle-free fabric to replace the current fabric of the PNP GOA uniform.
